Notes * Since August 2000, the "resident population" approach has been adopted in place of the "extended de facto" approach for compiling population estimates. Also, the Population Census which was conducted in March 2001 provides a benchmark for revising the population estimates compiled since the 1996 Population By-census. In this table, the population-related figures from 1996 onwards have been revised accordingly.

† Based on world standard population published in the 1997-99 World Health Statistics Annual.
