Elderly Health Service

The Elderly Health Service was set up in July 1998 to promote the health of the elderly population through provision of community-based, client-oriented and quality primary healthcare services, with a whole-person, multi-disciplinary team approach and maximum participation of everyone including the elderly themselves. A total of 18 Elderly Health Centres and 18 Visiting Health Teams, one in each district, were established.

Elderly Health Centres provide comprehensive primary healthcare programmes encompassing health assessment, counselling, curative treatment and health education. Elderly aged 65 and above can enrol as members of the centres. In 2006, the Elderly Health Centres recorded 38 042 enrolments and 186 167 attendances for health assessment and medical consultation.

長者健康服務

衛生署於一九九八年七月設立長者健康服務，透過社區服務，為長者提供以客為本、素質為先的優質基層健康護理服務，並以綜合專業隊伍的模式，合力照顧長者的整體健康需要，另亦鼓勵社區人士，包括長者在內，積極參與其中。衛生署共設立了18間長者健康中心和18支長者健康外展隊伍，分佈在每區為長者提供服務。

長者健康中心提供綜合基層健康護理服務，包括健康評估、輔導、治療及健康教育。凡年滿65歲或以上的人士可登記成為中心會員。二零零六年，長者健康中心的總登記人數為38 042人，接受健康評估及診症的長者達186 167人次。

Visiting Health Teams outreach out into the community and residential care setting to provide health promotion programmes for the elderly and their carers in collaboration with other elderly services providers. The aim is to increase their health awareness, self-care ability, and to enhance the quality of caregiving. An integrated and holistic approach is adopted in the “Improvement Project for Private Residential Care Homes”, which targets programmes at the specific training needs of caregivers in the homes, such as basic nursing skills. In 2006, Visiting Health Teams made 276 941 client-contacts.

In addition, to evaluate the effectiveness of the “Infection Control Enhancement Programme” and to identify areas for further improvement, an “Infection Control Checklist Survey” was conducted at all residential care homes for the elderly.

An “Influenza Vaccination Programme” targeting residents and staff living and working in residential care homes was conducted in November 2006. The programme was well-received and achieved
