

Application for Specialist Registration Guidance Notes

IMPORTANT

The Medical Council has directed that applicants should be reminded of the need to complete the application form for specialist registration properly, i.e. to complete them legibly as well as explicitly and fill in all details which are relevant, before their applications would be processed by the Council Secretariat.

(I) GENERAL INFORMATION

1. Pursuant to section 20K of the Medical Registration Ordinance, Chapter 161 Laws of Hong Kong, where the Registrar is satisfied that an applicant -

(a) has been -

(i) awarded a Fellowship of the Hong Kong Academy of Medicine (HKAM); and

(ii) certified by the HKAM that he has completed the postgraduate medical training and has satisfied the continuing medical education requirements for the relevant specialty; **or**

(b) has been certified by the HKAM that he has achieved a professional standard comparable to that recognized by the HKAM for the award of its fellowship and has completed the postgraduate medical training and satisfied the continuing medical education requirements comparable to those recommended by the HKAM, for the relevant specialty,

the Registrar shall refer the application to the Education and Accreditation Committee under the Medical Council for its consideration. On referral by the Registrar, if the Committee is also satisfied that the applicant is of good character, it shall recommend to the Medical Council that the name of the applicant be included in the Specialist Register.

2. Where an applicant does not satisfy the requirements in Paragraph 1, the Registrar shall refer the matter to the HKAM for its certification as to whether the applicant has achieved a professional standard comparable to that recognized by the HKAM for the award of its fellowship and has completed postgraduate medical training and has satisfied the continuing medical education requirements comparable to those recommended by the HKAM, for the relevant specialty. If on referral by the Registrar, the HKAM certifies that the applicant has not achieved that standard or has not completed that training and satisfied those requirements, the Registrar shall reject the applicant's application, stating the reason for rejection.
3. If an application is rejected by the Registrar, the applicant may appeal to the Education and Accreditation Committee under the Medical Council.
4. A specialist is under a statutory obligation to undergo continuing medical education determined by the Hong Kong Academy of Medicine ("HKAM") for his specialty. A specialist cannot use the "CME-Certified title" which can only be used by non-specialists.
5. If the Medical Council orders a removal of the name of a registered medical practitioner under section 19(1) of the Medical Registration Ordinance and that person's name is also included in the Specialist Register, the Registrar shall, at the same time when he removes that person's name from the General Register, also order the removal of his name from the Specialist Register.
6. All registered medical practitioners must notify any change of address. The Medical Council may order the removal from the General Register of the name of any medical practitioner who has not supplied to the Registrar any address through which letters or telegrams addressed to him at such address will be delivered to him.
7. A list of registered medical practitioners whose names have been included in the Specialist Register will be published by the Medical Council in the Government of the Hong Kong Special Administrative Region Gazette.

(II) APPLICATION PROCEDURES

1. A registered medical practitioner who wishes to have his name included in the Specialist Register shall apply to the Registrar by completing the appropriate application form.
