The pharmacists covered in the 2015 HMS were pharmacists registered with the Pharmacy and Poisons Board of Hong Kong under the Pharmacy and Poisons Ordinance (Chapter 138) as at the survey reference date – 31.8.2015.

The number of pharmacists covered was 2,475.

Of the 2,475 registered pharmacists covered, 1,086 responded to the survey, giving an overall response rate of 43.9%. Of the 1,086 responding pharmacists, 877 (80.8%) were economically active*† (active) whereas 209 (19.2%) reported to be economically inactive*‡ (inactive) in the local pharmacy profession (See Chart).

Of the 877 active pharmacists, 817 (93.2%) were practising in the local pharmacy profession, 50 (5.7%) were seeking jobs, nine (1.0%) believed that work was not available or were waiting to take up a new job in the local pharmacy profession and one (0.1%) had not been available for work because of temporary sickness during the 30 days before the survey.

The survey findings presented below were based on the 817 responding pharmacists practising in the local pharmacy profession as at 31.8.2015. As some questionnaires had missing responses, percentages presented below may not add up to 100%.

(i) Five registered pharmacists did not indicate their gender. Of the remaining 812 active pharmacists enumerated, 375 (46.2%) were male and 437 (53.8%) were female, giving an overall sex ratio of 85.8 (males per 100 females). Apart from 12 registered pharmacists who did not indicate their age, the median age of the remaining 805 active pharmacists enumerated was 40.0 years.

(ii) Distribution by sector of the main job§ showed that 457 (55.9%) active pharmacists enumerated were working in the private sector, followed by 261 (31.9%) in the Hospital Authority, 70 (8.6%) in the Government and 29 (3.5%) in the academic and subvented sectors.

(iii) 71.5% spent most of their working time on service in pharmacy║, followed by 12.2% on administration / management¶ and 7.3% on manufacturing / marketing / sales**.

(iv) The median number of hours of work (excluding meal breaks) per week of the 817 active pharmacists enumerated was 44.0 hours. Among them, 79 (9.7%) pharmacists were required to undertake on-call duty, with a median of 10.0 hours of on-call duty (excluding normal duty) per week.

Among the 209 inactive pharmacists (See Chart):

(i) 121 pharmacists reported not practising in the pharmacy profession in Hong Kong and not seeking job in the local pharmacy profession during the 30 days before the survey. The reasons reported for not seeking job included: 54 (44.6%) were working in other professions, 33 (27.3%) were retired, 16 (13.2%) wanted to take rest / had no motive to work / had no financial need, nine (7.4%) were engaged in household duties, etc.

(ii) 83 pharmacists reported practising overseas and five reported practising in the Mainland.

* In the survey, the criteria used in defining economically active / inactive followed those recommended by the International Labour Organization, which are also being used by the Census and Statistics Department in Hong Kong.

† “Economically active” pharmacists comprised all “employed” and “unemployed” pharmacists. “Employed” pharmacists referred to those pharmacists practising in the pharmacy profession in Hong Kong during the survey period, while “unemployed” pharmacists referred to those pharmacists who (a) were not practising in the local pharmacy profession during the survey period; (b) had been available for work during the seven days before the survey; and (c) had sought work in the local pharmacy profession during the 30 days before the survey.

‡ “Economically inactive” pharmacists comprised the responding pharmacists who were not practising in the pharmacy profession in Hong Kong during the survey period, but excluding those who had been on leave during the survey period and those who were economically active but “unemployed”.

§ Main jobs referred to the jobs in which the pharmacists had spent most of their working time.

║ Service in pharmacy referred to the work which had direct contact with patients in dispensing and patient counselling.

¶ Administration / Management referred to the work which was out of scope of pharmacy such as supervising staff, accounting, budget control, procurement of drugs, etc.

** Manufacturing / Marketing / Sales referred to the work involving in the pharmaceutical company (wholesaler) or pharmaceutical manufacturer such as manufacturing, marketing and sale.
